IUOE Unit 12 Dues Realignment – February 16, 2018

On Friday, February 16th, the Business Managers from Local 3, Local 39 and Local 501 met with IUOE General President Callahan to discuss the dues realignment.

We noticed you of a Unit 12 dues realignment last month that is going to be effective March 1, 2018. After hearing some concerns about the realignment the three Business managers approached the IUOE General President Callahan regarding the concerns and after considering all options the IUOE General President has generously decided to waive the per capita tax paid to the International Union.

Therefore, the Unit 12 realignment of dues that will go into effect on March 1, 2018 will be calculated at two times your hourly rate instead of the previous reported two times the hourly rate plus per capita tax.
