## **IUOE Unit 12 works with State Controller's Office to correct the new dues implementation - March 29, 2018**

Last week the Unit 12 administrative staff discovered that there was a problem at the State Controller's Office with the implementation of the new dues realignment formula.

For several hundred of our bargaining unit members the incorrect amount will be deducted from their March pay warrants.

This issue has been brought to the attention of the State Controller's Office by the IUOE Unit 12 Office and they have assured us that they will take the necessary steps to correct it even if it means sending out refund checks.
