Job Title: Caltrans Equipment Operator II

Class Code: 6286

Crew: Northgate MTCE

Unit: 0489

Work Location: District 3

Physical Location: 3940 Rosin Court, Sac CA 95834

Shift: Days 5/40

Days Off: Saturday and Sunday

Shift Start: 0700

Shift End: 1530

Comments: **PLEASE EMAIL BIDS**, PM-0700 Nepotism Disclosure Form required

Pre-Requisite Skills: Valid Class A driver's license is required.

Job Description: Much of this position is labor intensive. Incumbent must have physical ability to react quickly to errant motorists and do strenuous hand and mechanical labor. Note: For standing, walking and sitting, along with several other activities, typical duties are used as examples in various situations to give ranges for the activities. Generally, activities can be broken down into operating equipment 45% of the time on a year-round basis. The remainder of the activity is labor. Standing, Sitting and Walking is described to equal 100% of the work time for a given period such as a work shift. The following are various situations and percentages given to illustrate typical ranges of time spent sitting, standing and walking: A. Rainy day where worker is digging out clogged ditches and drains: Standing and walking using hand tools 40% each; Sitting and driving 50%. B. Snowy day: Sitting and operating large trucks, loaders, motor graders and snow blowers 90%; walking and standing, checking out equipment, 10% C. Crack sealing: Standing and walking 95% of the day D. Chip sealing: Standing, operating truck, loader, spreader, 80% to 90% of the day E. Paving: Operating trucks, motor graders, loaders, pavers, 45% of day. Standing and walking, raking and shoveling, 45% of the day. F. Litter pickup/patrol: Lifting, walking and climbing in/out of vehicle 95% of the day G. Flagging/Pilot Car/Lane Closure Operations: Standing, twisting and turning, and sitting 95% of the day Lifting (Floor to bench to Floor) – Items listed may be any of the following but not limited to: tire chains for vehicles which may weigh as much as 75 lbs. per chain. In the winter months these could be handled on an every day basis; a post driver which weighs approximately 60 lbs.; assists with the loading and unloading of a tire in a rim which can weigh over 75 lbs. Another example of lifting is shoveling asphalt. Each shovel full lifted weighs approximately 15 lbs., and 1,000 to 1,500 lbs. of sand or asphalt per day would normally be lifted. 80% of this lifting would be floor to waist and 20% lifted above the waist. Installing marker post, at least two feet into the ground, requires lifting up and pulling down the 60 lb. driver 10 to 150 strokes per post, worker could install up to 40 markers per day. Another type of lifting is light pickup – loading garbage bags with litter which requires continuous bending and lifting. Carrying – Bagged/boxed material, which may weigh 50 to 100 lbs., must be carried from storage areas to vehicles and from vehicles to job sites, which may be on uneven terrain. Tools are carried a few feet to 100 yards and weigh a few ounces to 50 lbs. each. Tools carried include picks, hoes, rakes, hoses, signs, standards, flags, cones, guide posts, etc. and may be carried on uneven terrain. Overhead reaching. Overhead work includes pulling yourself up into many types of equipment from 0 to 30 times per day, pruning, holding up signs off a ladder, servicing equipment on the lube hoist, signaling other workers, and throwing/loading material in equipment. Other Reaching – Setting cones, lubing and checking equipment, raking, shoveling, driving, using digging bar, shifting, holding signs picking up cones; often done on a continuous basis over 60% of the work shift. Pushing/Pulling – Shoveling, opening garage doors, hooking up trailers; installing plows, sanders, kettles, pulling on hoses, working cranks on equipment stands; tightening and loosening nuts on bolts. Installing and removing tires and chains; pulling down on post drivers. Pulling brush and limbs, animal carcasses, and pulling chains. Twisting - The Operator twists while driving equipment on a continuous basis, especially while backing up or turning around while operating a pilot car. Other twisting is done while dragging brush, shoveling, raking and setting down and picking up traffic cones which weigh 10 lbs. Climbing/Balancing – Climbing is done in and out of equipment, up and down banks and used in fine manipulation of a chain slopes, ladders, stairways, (often with a load of material or supplies); onto steps and walkways to do engine checks on.

Pre-Requisite Skills: Requires a Class A commercial driver's license with tank (N) endorsement.

Job Description: Under the direction of a Caltrans Maintenance Supervisor, the Caltrans Equipment Operator II (CEO II) will operate and service vehicles requiring a Class A commercial driver's license with tank (N) endorsement, and performs work related to highway maintenance, structures maintenance, construction, and Landscape Maintenance. When not operating the specified equipment, the Equipment Operator II may perform any of the duties outlined under Caltrans Equipment Operator I, Caltrans Highway or Landscape Maintenance Worker, and perform other related highway maintenance work. The CEO II maintains knowledge of all current mandated and applicable safety training and standards, policies, practices, directives, and expectations, and complies with all departmental training and safe work practice requirements. The CEO II may be assigned to other operations units and/or geographical areas as operations needs dictate. Overnight travel out of town up to 80 percent of the time may be required to meet operational needs. The incumbent will operate and service highway maintenance equipment identified as Levels of Equipment for Caltrans Equipment Operator I and II. The incumbent will operate appropriate equipment to conduct asphalt and concrete repair and preventative maintenance operations related to SB-1. Will carry out the installation and repair of signs, fence and guardrail and may perform striping, pavement marking, culvert, and bridge-related work. The incumbent may be required to perform snow and ice control tasks including truck, grader, or rotary plowing, repair and removal, chain control operations, apply deicing materials, and the construction and repair of traction control devices. May be required to operate a mobile sweeper as the designated operator for all cost centers within the Superintendents' area. The incumbent maintains knowledge of all current mandated and applicable safety training and standards, policies, practices, directives, and expectations, and complies with all departmental training and safe work practice requirements.
